School Introduction

China University of Petroleum, Beijing Campus (CUPB), is located in a scenic region of tourist interest in Changping County,

Beijing, about 5 miles to the Ming Tombs and 15 miles to the Great Wall. CUPB offers not only engineering programs in oil

and gas science including chemical engineering, petroleum engineering, geoscience and mechanical and electronic

engineering, but also , in computer science, business management and Chinese Language Study programs of a full range

from diploma, bachelor's and master's to doctoral programs.

For its great achievements in education and research, the university, as a national key university, has successfully passed the

prejudication conducted by all the authorized organizations of different levels for a government-launched "211 Project" (i.e. In

the 21st Century, China will focus its investment on 100 institutions of higher learning to accelerate their development.) and

has been selected as one of the first institutions implementing the project by China State Educational Ministry.

The university has 4 faculties, 5 departments and 3 schools and 1 research center, offering 22 bachelor's , 47 master's and 23

Ph.D. programs and one diploma program in Chinese Language Study. It has 13 research institutes, 31 research groups, 30

laboratories, 5 centers, and one state key laboratory.

Among a staff body of 1000, 128 are full professors and 149 associate professors. The number of the registered degree

students comes up to 10000, including 600 Ph.D. students, 3400 M. Eng. students and 6000 B.Eng. students, and about 2000

students take continuing educational programs each year. At present, the university has about 200 international students.

The university Library has a collection of 250,000 bound volumes covering the whole range of the subjects studied at Beijing

Campus. It provides excellent services, including on-line service for literature search, to every reader.

The university Sports Center is the main campus recreation center. Facilities include an athletic ground, a multi-purpose

pavilion, a swimming pool and a gymnasium.CUPB has institutional linkages with more than 30 universities in USA, UK, Japan,

France, Norway, Russia, Romania, Thailand, Denmark, etc. Moreover, to help do researches for large coporations or seek

financial support for students at CUPB, we have established strong relations with Chevron,
