Program Description

Program introduction

Choosing Reasons

courses as the elementary unit of program education, and frontier and optional courses as the core units to deepen the student's knowledge in his/her chosen field. In addition, optional courses are also available for all the admitted students in the program to broaden

their interdisciplinary knowledge. Students in this program are encouraged to develop or extend their knowledge and understanding of the key approaches and methodologies to the humanities study of modern China, as well as their ability for interdisciplinary research. Faculty members will be always available to advise and guide students through their course study and thesis writing.
