Anthony Lopez-M
France
Graduate in 2012

Deputy General Manager
CCI France Chine
中国法国工商会

When I was 23 years old, with my recent Bachelor degree from a French business school, I made one of the most important decision in my life: move to Shanghai!

Shanghai is the most dynamic city in the world and Tongji-SEM proves its charm. During my 2-year program, SEM provided me with the best experience I have ever had, which helped me form a different way of thinking and taught me how to be adaptive into any situation and gave me the keys to the real business world.

Given this unique opportunity to study in such a multicultural and stimulating community, I built life-long friendship with great classmates from all over the world. Following my 18-months courses, I did an internship at the French Chamber of Commerce and Industry in China. Since I was a graduate from Tongji-SEM, they recruited me without any hesitation. After seven years of working there, I have grown to the Deputy General Manager for China—managing 40 people in mainland China region, and my business ranges from business development to global management, involving decision-making on marketing, strategy, budgeting etc. Whenever I go back to Tongji-SEM and recall those amazing year there, I feel those memories form a part of me now and I will never forget them. They made me what I am today and I am so proud of the program and the experience I had.

Career Development Service

Tongji-SEM Career Development Center (CDC) works closely with MNCs and Chinese corporations in and around Shanghai, hosts campus recruitment fairs every semester and distributes recruitment information among students from time to time. Some featured programs like company consultation projects have been carried out to foster the connection between companies, faculty members and students where students can enhance practical skill, sharpen their career focus and build early connections with companies. Students are also encouraged to attend various lectures host by CDC and of SEM to meet with CEOs, industry experts, practitioners, to broaden their vision and get more prepared for the future career. Chinese speaking skills are also very helpful for finding jobs in China, as most companies list this as a pre-requisite.

Employment rate within three months after graduation: 100%

The average income after graduation:
Third year or after: US\$84,670 per year

Life@Tongji

Tongji's campus is a green oasis at the heart of Shanghai with functional facilities and a network of living spaces both on campus and across the city. With Tongji Station located in Metro Line 10, you can easily and economically travel around Shanghai.

The campus is equipped with the latest technology to enable and enhance learning and communication, with multimedia classrooms, library database, and tailor-made online communication systems for students and faculty, and project stations with trading and management simulation software. Tongji has an extensive range of restaurants, clubs and sports venues, including its own auditorium, gym and multiple courts for basketball, tennis and football.
