Degree Programs Prospectus

Shanghai Ocean University

In the past 108 years' history of Shanghai Ocean University, it is our unrelenting spirit that has opened the door of exploration and hope for higher education of aquaculture and fisheries. It is our school motto "Diligence, Sincerity, Dedication and Practicality" that has helped the university create new histories constantly and keep pace with the world through the integration and communication of multi-cultures from generation to generation.

As the cradle of aquaculture education in China, Shanghai Ocean University has attracted many distinguished scholars and young talents with dreams and dedication to the ocean. In 2017, it has been selected as one of the the "Double First-Class Initiative" project university for its First-Class Discipline of Aquaculture by Ministry of Education of China. Shanghai Ocean University has now become a specialized university that features oceanography, aquaculture and food science as its core disciplines and simultaneously develops multiple related disciplines, covering agriculture, science, engineering, economics, management, law and humanities.

A series of achievements have been made by talents with a mission of building China into a maritime power, supporting blue granary and conducting education, science and technology in fisheries, aquaculture and food science based on the research mainline of sustainable development and utilization of aquatic biological resources and preservation of the earths environment and ecology.

Recognizing the importance of international exchange and cooperation, the university maintains close partnerships with universities and international organizations from the US, Japan, Russia, Australia, South Korea, and so on. It also has formed a long-term partnership in key international cooperative programs such as the China-US Cooperation Program for Marine Biological Resources, the UN Food and Agriculture Organization, the Asian Fisheries Society, and the International Center of Living Aquatic Resources Management. Shanghai Ocean University always views global cooperation as essential to become a leading research institution.

Major with * can have 1+3 (1 year Chinese preparatory course and 3 years major study) option.

Featured Bachelor Degree Programs:

Bachelor Degree Programs with Chinese Preparatory Courses (1+3 years)

International Economics & Trade

To meet the diverse needs of its international students, SHOU has adjusted the curriculum of popular major, International Economics & Trade, allowing those with no background in Chinese to complete the Chinese Preparatory Courses and Bachelor Degree Major Courses within a 4-year period. In their first academic year, students will be immersed in intensive Chinese study, and over the following 3 years will focus primarily on their major specific academic courses.

Course structure:

1 year Intensive Chinese Preparatory Course

3 years Major Study

Requirements: Pass HSK 4 (Above 180) before Major Study

A major in International Economics & Trade prepares students to play a leading role in Chinese trade and investment activities throughout the global economy. Upon graduation, students will possess proficient Chinese language, computer skills, as well as a comprehensive knowledge of Chinese business culture, practices, and rules. Students will be able to engage in international trade, international investment, and work in related fields.

China-Australia Double-Degree Bachelor Programs (AIEN Institute)

Based on the principle of complementary cooperation and mutual development, AIEN Institute was jointly established by the Shanghai Ocean University and University of Tasmania, Australia in 2002. The Institute now offers two programs, Bachelor of Information Management & Information Systems and Bachelor of Marketing, which were authorized by the Shanghai Municipal Education Commission in 2002 and 2003. Students come to study at our SHOU campus. Upon graduation, graduates will have 2 bachelor degrees issued by Shanghai Ocean University and University of Tasmania, Australia respectively.

Currently AIEN has more than 1500 students. Every year the employment rate for AIEN graduates is as high as 96%, with 10% employed by the world's top 500 enterprises. Among the 25% of graduates seeking advanced degrees abroad, over 30% of them have been admitted by the world's top universities.

Course Structure:

1 year intensive English and Chinese Preparatory courses

3 years academic study

Requirements: Students must pass IELTS 6.0 or equivalent after one semester to start the academic study.

1. Bachelor of Information Management & Information Systems (BIS)

The courses cover advanced information technology, information system, information management, business management, business logistics, and environment science. Equipped with English proficiency and expertise in analysis, modeling and development in information system, the graduates are prepared to be highly-qualified professionals in the relevant fields. Upon graduation, students can be readily employable for a professional job or pursue further study in well-known higher education institute.

2. Bachelor of Marketing (BBus)

The courses cover advanced marketing theory, marketing expertise, commerce, business management, finance and economics. The students are equipped with English proficiency and professional competence. Upon completing the program, graduates can be readily employable for a professional job or pursue further study in well-known higher education institute.

Featured Graduate Degree Programs

College of Fisheries and Life Science

Major: Aquaculture

Language of Instruction: English/Chinese

Aquaculture has the world-class faculty and obtained A-plus in the fourth national discipline assessment. In 2017, it was included in the national Double-First-Class discipline construction projects. It deals with the sustainable development and cultivation of aquatic biological resources and water ecological protection. Students will be trained with a global vision, innovative thinking and practical ability of excellence. Graduates have strong advantage in finding research positions in related field.

College of Marine Science

Major: Fishing Science

Language of Instruction: English/Chinese

Fishing Science mainly studies fish behavior and fishery information technology to provide technical support for scientific exploitation of aquatic biological resources. In 2017, it was included in the national Double-First-Class discipline construction projects. Now the college tracks the forefront of international research focusing on serving the sustainable development of deep-sea fishery and cultivates talents with an international perspective in the combination of basic marine fishery research and applied research.

College of Food Science and Technology

Major: Food Science and Engineering

Language of Instruction: English/Chinese

Food Science and Engineering is the first food processing major in China. Fruitful results have been achieved in scientific research and related aspects. The program is in line with international standards. In 2015 and 2019, it passed the IFT standard certification twice, which means that students' learning credits can be recognized by internationally renowned universities. Students trained by this discipline have broad basic knowledge, international vision and innovative consciousness, and can be engaged in scientific research, engineering design, production management, logistics and transportation, quality control, operation management role, as well as education and teaching in the food industry and related fields.

College of Economics and Management

Major: Fishery Economics

Language of Instruction: English/Chinese

Fishery Economics is supported by economic science, management science and aquatic science, guided by the principles and methods of economics and management, revealing the special economics and management laws in the fishery sector and its microeconomics entities. After years of accumulation and precipitation, it has formed distinctive features in fishery economic theory and policies, fishery resources and environmental economy, aquatic product market and trade, and fishing village development. Graduates can enter aquatic product companies and engage in aquaculture, marketing and planning management, feed and fishery medicine production and operation, aquatic technology promotion, aquatic product development and sales, etc.

Fees & Scholarships

Fees

	English	35,000		
Chinese Language Program	Chinese	17,600		
Preparatory Chinese Language Program	Chinese	20,000		

Scholarships

As one of China's leading universities and a member of the national level "Double First-Class" initiative, SHOU regularly accepts international students who have been awarded a Chinese Government Scholarship (referred to as CSC) as well as the Shanghai Government Scholarship (referred to as SGS). Also, to attract exceptional international students, SHOU provides its own "University President's Scholarship" to those students willing to pursue degree programs.

CSC- Chinese Government Scholarship

China Scholarship Council (hereinafter referred to as CSC), entrusted by the Ministry of Education of the People's Republic of China, is responsible for the enrollment and the administration of Chinese Government Scholarship programs. CSC has two categories of Scholarship.

(1) CSC Bilateral Programs Scholarship:

In this category, CSC has Bilateral Program, GREAT-WALL Program, EU Program, AUN Program and PIF Program scholarship. If you would like to apply one of these scholarships, please visit <https://www.campuschina.org/> for more information and directly apply to the designated institutions.

(2) CSC Chinese University Program Scholarship:

In this category, CSC has CSC Scholarship Chinese University Project and CSC Scholarship Silk Road Project. Students need apply to both at: CSC(<https://www.campuschina.org/>) and SHOU(admissions.shou.edu.cn).

SHOU Agency Code: 10264

CSC Scholarship Chinese University Project accepts doctor degree applicants.

CSC Scholarship Silk Road Project accepts bachelor and master degree applicants.

Applicable Majors for CSC Scholarship Programs please check our website <http://admissions.shou.edu.cn>

SCHOLARSHIP section.

Duration

Chinese Government Scholarship covers both major study and Chinese language (preparatory) study.

Language of Instruction

(1) Undergraduate scholarship applicants must apply for Chinese-taught degree program. Scholarship applicants who hold HSK 3 Certificate can apply to take one-year Chinese language preparatory courses and to reach the language requirements before moving on to their major studies. Please notice that fail to reach the required language proficiency will lead to the automatic termination of scholarship.

(2) Graduate scholarship applicants can apply for either the Chinese-taught degree program or the English-taught degree program. Scholarship applicants of Chinese-taught programs who hold HSK 4 Certificate can apply to take one-year Chinese language preparatory courses and to reach the language requirements before moving on to their major studies. Failure to reach the required language proficiency will lead to the automatic termination of scholarship.

Application

Applicants shall apply both at www.campuschina.org/ and admissions.shou.edu.cn

SHOU Agency Code: 10264

Application Deadline for CSC: **April 30th, 2021**

SGS - Shanghai Government Scholarship

For the purpose of constructing the science and technology innovation center with global influence, promoting the international cooperation and communication, and attracting more outstanding prospective international students to study in Shanghai, Shanghai Municipal People's Government has set up "Shanghai Government Scholarship for International Students" (here in after referred to SGS) since 2006. It is established to fund distinctive prospective international students to study in higher educational institutions in Shanghai.

Application

All the majors (except AIEN Institute) are applicable for SGS scholarship.

Applicants shall apply both at <http://study.edu.sh.gov.cn/en/> and admissions.shou.edu.cn

Application Deadline for SGS: **May 30th, 2021**

SHOU - PS: Shanghai Ocean University

President Scholarship

As one of China's leading universities and a member of the national level "Double First-Class" initiative, to attract exceptional international students, SHOU provides its own "Shanghai Ocean University President Scholarship" (referred to as SHOU - PS) to those students willing to pursue degree programs.

Application

All the majors (except AIEN Institute) are applicable for SHOU-PS scholarship.

Applicants shall apply at admissions.shou.edu.cn

Application Deadline for SHOU-PS: **May 30th, 2021**

Application

Programs & Duration:

Undergraduate program: 4 years

Postgraduate programs: 3 years

Location: Shanghai Lingang Campus (China)

Application Deadline for Degree Programs: June 30th 2021

Applicant Eligibility

- (1) Applicant must be a non-Chinese citizen in good health.
- (2) Age and education background:

Applicant applying for bachelor degree programs, should obtain a high school degree or above and be no more than 25 years old; for master degree programs, applicant should have a bachelor degree or above and be no more than 35 years old; for PhD programs, applicant should have a master's degree or above with academic research ability, and be no more than 40 years old. Applicant applying for the pre-college program should obtain a high school degree under the age of 23 years old.

- (3) Outstanding in academic performance.

Application Procedure

Step 1:

Register at admissions.shou.edu.cn, complete the application form and submit all required application documents.

Step 2:

Pay application fee of RMB 400 online. The application is not complete until you pay the application fee and submit all the required application documents.

Documents Required

1. Online application form at admissions.shou.edu.cn

2. Passport Photocopy

A clear copy of your valid passport with name, photo, birth date, place of birth, date of issue, and date of expiry clearly visible.

Visa page is required for applicants who are currently living outside their country of residence.

3. 1-inch electronic Personal photo. Jpg Format.

4. Degree certificate and transcripts of previous education

High School Diploma and transcripts for applying undergraduate programs.

Graduating students should provide a certificate of impending graduation Bachelor Degree Certificate and Transcripts for applying postgraduate programs.

- Copies of the original certificate with the school's official stamp and/or the signature of the principal. If the originals are not in Chinese or English, they must be translated and notarized by authorized educational institute.
- For applicants who haven't graduated, impending receipt of graduation certificate, copies of all transcripts available at the time of application are acceptable. However, official graduation certificate and transcripts of all grades must be submitted promptly after being received.

*Original copies must be provided on registration day.

5. Language Proficiency Certificate

If you are applying for Chinese-taught programs, please provide HSK Certificate received within the last 2 years:

- Undergraduate program requirements: HSK 4 with a score above 180
- Postgraduate program requirements: HSK 5 with a score above 180

If you are applying for English-taught programs, please provide Certificate of IELTS 6.0 or TOEFL IBT 80 or above, received within the last two years. Students submitting any other English proficiency certificate may be asked to provide supplementary materials. Applicants whose native language is English do not need to provide these documents.

*If applied for International Bachelor Degree program or AIEN institute program, you don't need to provide any language certificate.

*If applied for Chinese preparatory courses along with Bachelor Degree program, you need provide HSK Level 3 Certificate.

*If applied for Chinese preparatory courses along with Master Degree program or Doctor Degree program, you need provide HSK Level 4 Certificate.

6. Personal Statement

An essay statement written in English or Chinese on one page of A4 size paper. Introduce why you are applying, describe your interest and enthusiasm for your chosen major, and how your previous studies or experiences relate to it. Describe what makes you suitable, such as relevant skills, experience, or achievements gained from previous education, work, and other activities.

7. Foreigner Physical Examination Certificate

You can download the form at our website: admissions.shou.edu.cn.

8. Non-Criminal Record

9. Guardian's commitment (16~18 years old)

Applicants who are from 16 years old to 18 years old need provide guardians commitment. You can download the form at our website: admissions.shou.edu.cn. Please fulfill the form and sign it.

Additional Documents Required for Postgraduate programs applicants

Written in English or Chinese, including your personal information, educational background, work or intern experience, achievements so far and other information that might be useful.

11. Research Proposal

Written in English or Chinese, including research achievements thus far (e.g. title and abstracts of graduation thesis or published paper), reasons for choosing SHOU, study objectives while attending SHOU, future research plans, etc.

12. Two Recommendation Letters

Written in English or Chinese by 2 different professors or associate professors from previous academic institutions. Can also include work supervisors, etc.

13. Supervision Confirmation Letter from Professors of Shanghai Ocean University.(optional)

If there is some specific professor of SHOU agreed to accept and mentor you during future study, please fill in the Supervision Confirmation Letter Form at our website.

上海海洋大學

Chinese Language Programs

To better serve international students, in 2005, the College of International Cultural Exchange was founded. It is the administrative department responsible for the education, assistance, and progress of all overseas students. The College strives to meet the diverse language needs and goals of its students, and offers regular Chinese language programs, summer programs, short-term study programs, as well as HSK preparation courses. Ranging from elementary to advanced, these courses ensure continuing language progress and mastery. Besides their routine classes, students can improve their practical knowledge of Chinese through engaging language activities and cultural experiences.

Autumn Semester

Duration	Course Level	Class Hours
September-January (next year) (16 weeks)	Elementary Intermediate Advanced	Monday to Friday 8:15am-11:40am 4 class hours/day

Spring Semester

Duration	Course Level	Class Hours
March-July (16 weeks)	Elementary Intermediate Advanced	Monday to Friday 8:15am-11:40am 4 class hours/day

Summer Program

Duration	Program Time	Course Level	Class Hours
4 weeks	July-August	Elementary Intermediate Advanced	Monday to Friday 8:15am-11:40am 4 class hours/day

Applicant Eligibility

1. Non-Chinese citizen in good health.
2. Between 16 to 55 years old at the time of application.
3. Holding a valid passport and visa.

Application Deadline

1 month before the program begins.

Each program will need the enrollment of 10 students to be set up. If there are less than 10 students applied for a particular program, we will wait for the admission of more students to meet the required number before start the program.

The fees will not be refunded after the program starts, except for the reason that the program cannot be set up.

Preparatory Chinese Language Programs

SHOU offers Preparatory Chinese Language programs, aiming to prepare students for the Chinese level that the major study required. Normally it requires HSK level 4 for bachelor degree programs, and HSK level 5 for master and doctor degree programs.

Duration	Program Time	Course Objective
1 year	September - July (next year)	Prepare for HSK 4 or HSK 5 tests and related Chinese language for major study

Students Testimonials

Name: MANNAPOV UMIDJON

Country: Uzbekistan

Program: Chinese Language Program

Current: Food Science and Technology

Bachelor student with CSC full scholarship.

Hello everyone, my name is Umid, I am from Uzbekistan.

I would like to take this opportunity to thank everyone involved in the organization of this program, the teachers, students and heads of SHOU. During my studies, I gained a lot of useful things. With the help of my teacher, I not only improve level of my Chinese language, but also learned about ancient and modern Chinese culture. Now, I feel that my Chinese level has been greatly improved, but also a deeper understanding of Chinese traditions and culture.

Привет всем, меня зовут Умид, я из Узбекистана. я хотел бы воспользоваться этой возможностью, чтобы поблагодарить всех, кто участвовал в организации этой программы, учителей, студентов и руководителей Шанхайского океанического университета. во время учебы я получил много полезных вещей. с помощью моего учителя я не только повысил уровень знания китайского языка, но и узнал о древней и современной китайской культуре. теперь я чувствую, что мой уровень знания китайского языка значительно улучшился, но и более глубоко стал понимать китайские традиции и культуру.

Name: AIMABLE

Country: Rwandan

Program: Master in Computer Science and Technology

Current: Senior support Engineer in Microsoft M365/Exchange online)

Of all the things I've been a part of in CHINA (both during my student life and work that I've spent here), being part of SHOU community member (and graduate!) is what I'm most proud of. Having the opportunity to be at SHOU four years were among the best years of my life, definitely allowed me to improve my academics and progress towards accomplishing my goals.

De toutes les choses auxquelles j'ai participé en CHINE (à la fois au cours de ma vie étudiante et du travail que j'ai passé ici), faire partie de la communauté SHOU (et avoir obtenu mon diplôme !) Est ce dont je suis le plus fier.

Name: NARCISSE

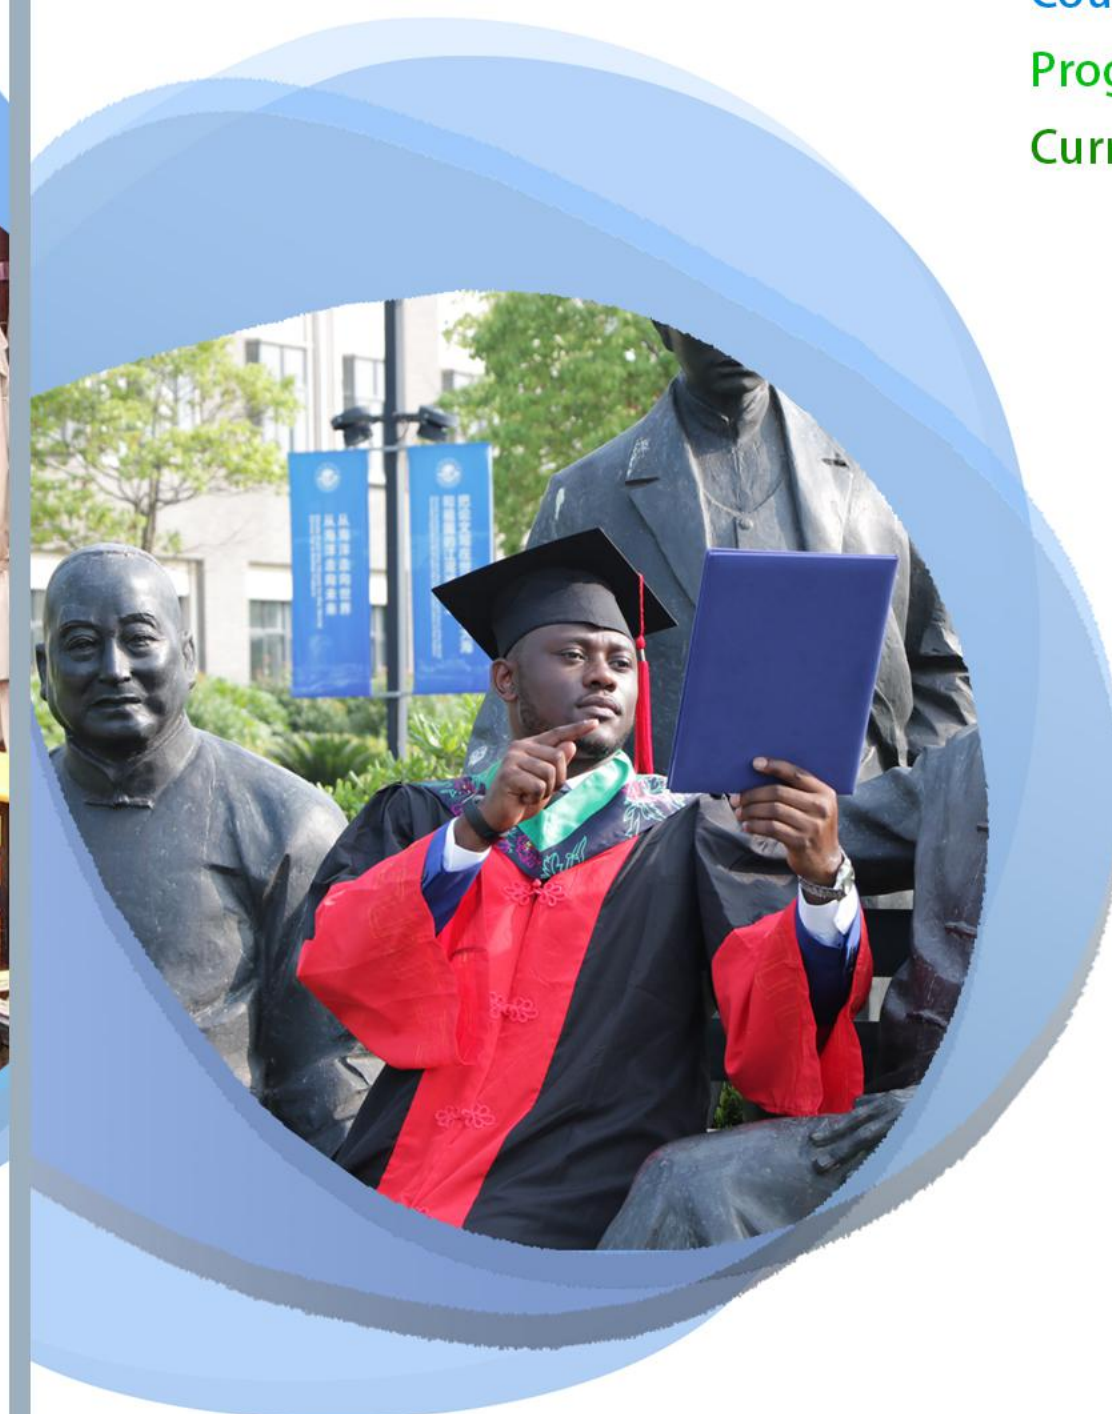

Country: Cameroon

Program: PhD in Marine Sciences

Current: Postdoc in Fisheries and Life Science

I graduated in 2020 and I am currently a postdoc. I love studying at Shanghai Ocean University because of its environment. It is a great place to gain knowledge. All the teachers and staff are friendly and the majority speak English. I learned a lot from my major, increased my research skills and I am still learning. I also learned a lot about social life and leadership at this university. I have met a lot of good friends from different countries, including Chinese friends from different provinces. Thank you SHOU.

J'avais choisi de venir étudier dans cette université juste à cause de son nom, qui correspondait à mon domaine d'étude. Aujourd'hui, je suis très fier du choix de cette université car elle a beaucoup à offrir. J'ai beaucoup appris grâce à son environnement incomparable. J'ai obtenu mon diplôme en 2020 et je suis actuellement postdoc à l'Université de l'Océan de Shanghai. C'est un excellent endroit pour acquérir des connaissances. Tous les professeurs et le personnel sont sympathiques et la majorité parle anglais. J'ai beaucoup appris de ma spécialité et acquis des compétences en recherche. J'ai aussi beaucoup appris sur la vie sociale et le leadership dans cette université. J'ai rencontré beaucoup de bons amis de différents pays, y compris des amis chinois de différentes provinces. Merci SHOU.

Name: POOLSAWAT

Country: Thailand

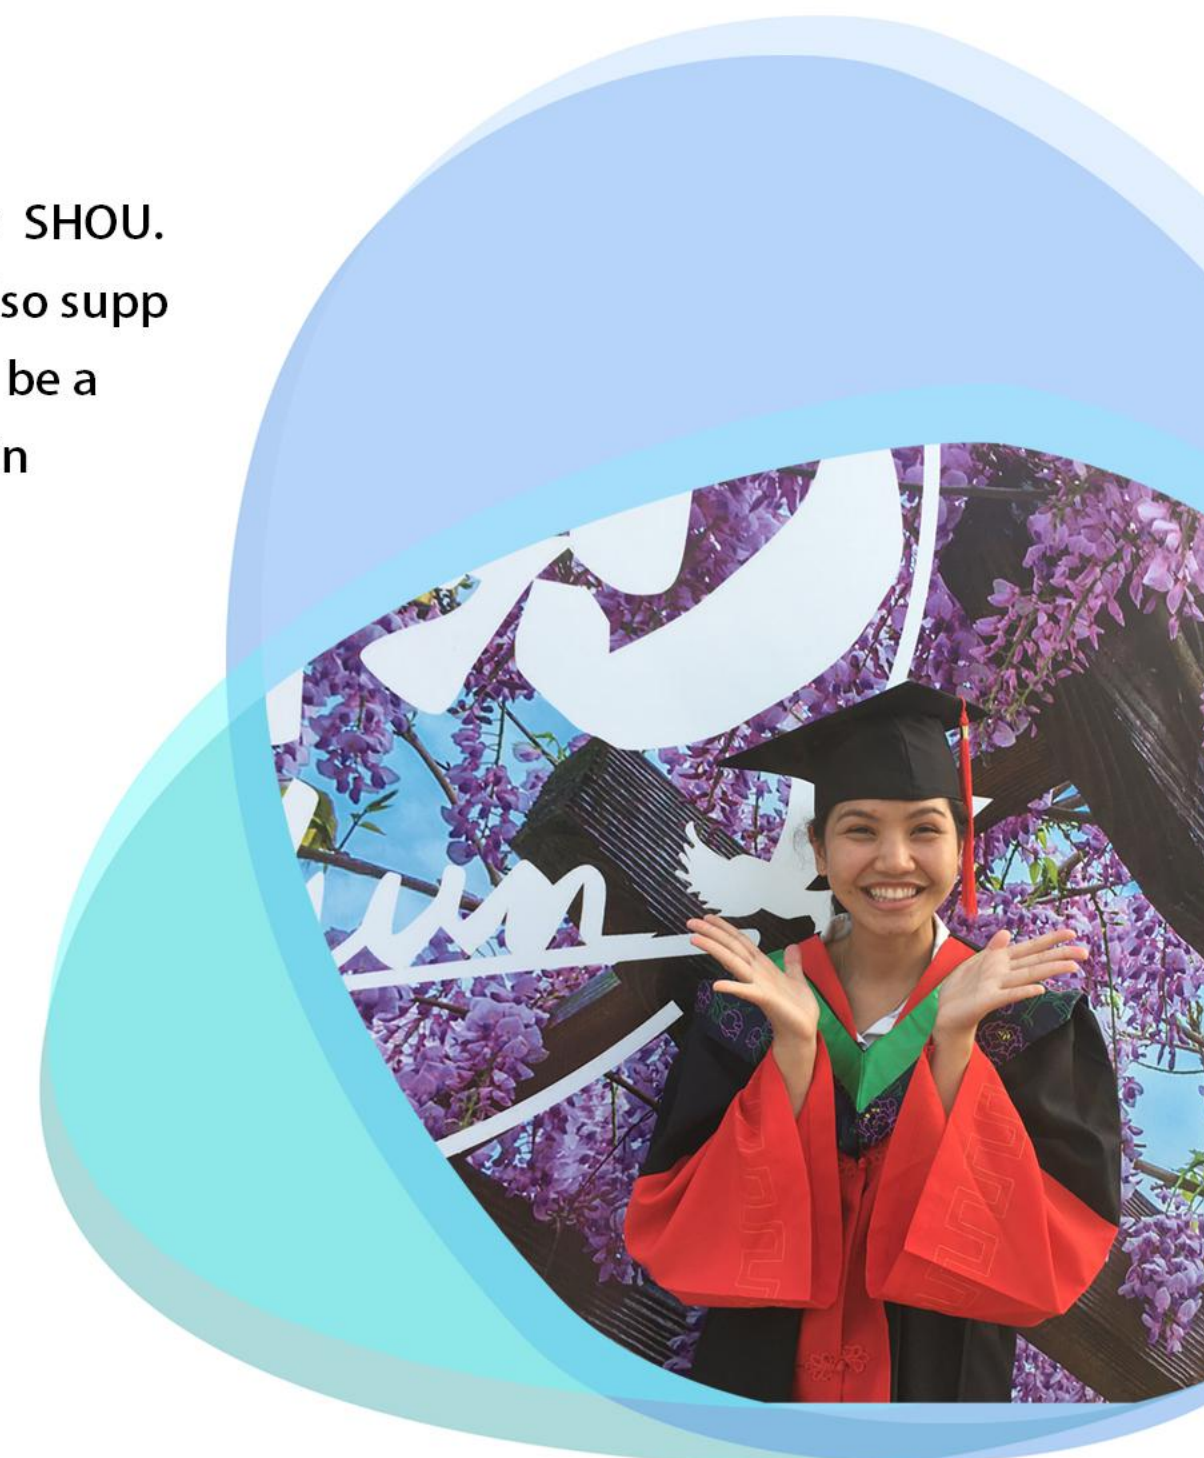

Program: PhD in Aquaculture

Current: Research Executive, Vet Productions Group, Thailand

I am pleased to greet you. It was a great journey during my PhD study in SHOU.

It was not only giving me about the academic knowledge, but it was also supporting me for the best experiences and memories. I am very happy to be a part of SHOU family. Hope all juniors will enjoy and take a good time in SHOU too. Finally, I am very thankful to all professors, teachers and friends for their warmth and encouragement.

สวัสดิ์ที่พี่น้องชาวSHOUทุกท่านจะตลอดระยะเวลาในการเรียนปริญญาเอกที่นี้ที่ได้รับประสบการณ์มากมายไม่เพียงแต่ความรู้ในห้องเรียนหรือความรู้ทางงานวิจัยแต่ยังได้รับประสบการณ์ใหม่ๆเกี่ยวกับการใช้ชีวิตวัฒนธรรมมิตรภาพและความรู้เกี่ยวกับภาษาจีนซึ่งเป็นสิ่งที่คุ้มค่ามากที่สุดในการเป็นนักศึกษาต่างชาติของประเทศจีนขอบคุณมหาวิทยาลัยและอาจารย์ทุกท่านที่ดูแลและต้อนรับอย่างอบอุ่นเสมอมาสุดท้ายนี้พี่ขอให้น้องๆชาวSHOUทุกท่านมีความสุขในการเรียน และได้รับประสบการณ์ที่ดีตลอดระยะเวลาการศึกษาค่ะ

Lin-gang Special Area

A pioneer in institutional innovation

Lin-gang Special Area was established on August 20th, 2019. It is an extension of the China (Shanghai) Pilot Free Trade Zone, and serves for China's reform and opening-up. Located on the East China Sea, it leads the country's efforts to provide open investment, trade, capital, transportation and employment on its land and surrounding waters.

Currently enrolled international students are allowed to start a business in Lin-gang Special Area in their spare time while study at the university at the same time. Students will have an entrepreneurship visa stamp added on the study visa, which means they can have business activities here.

Meanwhile, international students are allowed to seek an internship related to their major in the companies located in this area.

Upon graduation, outstanding international graduates from Shanghai Ocean University with a bachelor degree or above are allowed to find a job and work here. If the company is located in Lin-gang Special Area, the Lin-gang Special Area Administration Bureau will have a maximum 10 bonus credits added to your existing scores in assisting for the application of working visa.

Lingang area of the Shanghai pilot free trade zone should carry out all-round high-level opening-up with greater depth, broader range, and more strength. An Important Base for Innovation with Collaboration from International Talents, Important Hub for Coordinating Onshore and Offshore Business, Important Springboard for Companies Going Global, Important Channel Connecting Domestic and International Markets and Resources, Important Test Field for Participating in International Economic Governance. In the innovation of Systems and mechanisms, strengthening institutions, and boosting the quality of Chinese economy.

--- President Xi

Accelerate the creation of a special economic functional zone which holds a stronger sway and enjoys a more considerable competitive advantage on the international market. Promote the construction of a new modern city which is inclusive and innovation-driven, and features smart ecology, industry-city integration, livability and good working conditions.

Overall Plan of Lingang Special Area
of China (Shanghai) Pilot Free
Trade Zone

Visa Application

Students accepted by SHOU will receive an Admission Package which includes an Admission Notice, Visa Application Form for Study in China (JW201 or JW202), New Students Guide, as well as the Semester Calendar and Campus Map. With these documents, students must apply for a X-type(Study Visa) at their local Chinese embassy or consulate.

Accommodation

SHOU offers International Student Apartments with over 300 beds available on campus.

A public common area including a study lounge, activity room, as well as kitchens and laundry rooms are located on the first floor. All rooms are equipped with an air conditioner, bed, desk, wardrobe, internet/telephone outlets, and other basic necessities.

Room Type	Fees/Night (in CNY)	Fees/Semester (in CNY)	Fees/Year (in CNY)	Fees for Bedding (in CNY)
International Student Apartment No.1 (For Male Students)	Double Room (A) 20	3300	6600	380 / Set (Optional)
	Single Room (B) 40	6600	13200	
International Student Apartment No.2 (For Female Students)	Double Room (C) 30	5000	10000	Provide Free Bedding
	Single Room (D) 60	10000	20000	

All rooms in Apartment No.1 are suite room with a single room and a double room, sharing a bathroom. A public common area including a study lounge, activity room, as well as kitchens and laundry rooms is located on the first floor.

Each room in Apartment No.2 is equipped with its own private bathroom. A public common area including a study lounge, activity room, as well as kitchens and laundry rooms are located on the first floor.
