About DUFE

Dongbei University of Finance and Economics (DUFE) is located in Dalian in the northeast of China. With its beautiful coastal location and a mild climate, Dalian is one of the most vibrant cities in China and also a great place to live and study. DUFE was founded in 1952 and now it becomes one of China's top-ranked finance, banking and economics universities. The famous Hei Shijiao, which is DUFE's close neighbor, owns beautiful seaside and surrounded by lush mountains.

DUFE has thirty years' experience of international education, which educated more than 10,000 students from 120 countries. It has built an international students education management system which includes undergraduate, master and PhD programs both in Chinese medium and English medium. It also provides non-degree programs including short-term and long-term Chinese language & Business Chinese language courses, visiting programs and credit exchange programs. DUFE is a host institution that provides China Government Scholarship, Confucius Institute Scholarship and Liaoning Provincial Government Scholarship for international students. DUFE was awarded one of the best international education institutions by Liaoning Provincial Government.

Why Students Choose DUFE

Advanced teaching facilities, high level of teaching quality and international teaching philosophy.

High employment rate of graduates in China

Top quality of student service and support

Internship opportunities and career development support

Convenient campus life with surrounding urban amenities

Dalian is the most livable cities and business center in the northeast China

Missions

- to focus on quality of education
- to promote international engagement and strengthen its competitiveness
- to equip graduates with consciousness of moralities and social responsibility
- to cultivate talents of innovation, persistence in pursuit of science as well as practical capabilities

Features

- Ranked 2nd nationally for the quality of the MBA/Business programs (The Academic Degree Administration Office of the State Council)
- First-ranked institution of higher learning in Finance and Economics (Government Authority)
- Ranked 1st among its peers (China Youth Daily's University Ranking List)

Bachelor's Program

I have been in DUFU for two and a half years. I will never forget every care of my teachers. I want to extend my gratitude to my teachers for their hard work and for the happiness that DUFU has brought to me. What I want to say to freshmen is: To cherish every day in DUFU, and keep on doing your major well.

—Ahmed Abdullah Al-Halili (Yemen)

Chinese program: we have launched the “language + profession” training mode, which help international students to learn practical knowledge and skills in different majors, master Chinese listening, speaking, reading and writing communication skills, getting familiar with Chinese culture and society. After their graduation, students will engage in international business, international trade, cultural exchange, Chinese teaching, tourism, and other related areas.

English program: the Global Institute of Management & Economics (GIME) at Dongbei University of Finance and Economics (DUFU) provides programs in English medium. These programs will enable students to understand how firms become and remain international in scope. They will learn to apply management theories and techniques in a developing multinational business environment.

Students major in Business Management (English Medium) have the chance to participate in Double Degree Program. After three years of study in DUFU, students can choose to continue their study in DUFU or in Ulster University in the UK for one year's further study. Besides, we have cooperation with the University of Warsaw. If our students pass all the courses and meet both institutions' graduation requirements, students can be awarded a bachelor degree from both DUFU and Ulster University or Warsaw University.

Majors Overview (English Medium)

Master of International Business Management

Master of International Business Management is based on teaching and research, complemented with practical application of learning during an internship. This program is designed especially for international students who are interested in corporate management or international trade where business interaction with China is involved.

In the first academic year students will take a number of compulsory modules that help develop their understanding of management and organization. In the second year the program requires students to develop their research techniques through specifically designed projects and encourages students to obtain practical skills through internships.

DUFE has signed agreements with dozens of enterprises in Dalian to offer internships and work opportunities for our students. Students can be employed a full time employee in one of these companies after graduation.

Main courses: Management, Management Information System, Statistics, Microeconomics, Strategic Management, Basic Chinese, Research Methods, Organizational Behavior, Human Resource Management, and Research Project, etc.

Master of Financial Management

Master of Financial Management Program is designed to develop intellectuals who can master comprehensive financial management theories and also possess practical skills in the field. With the training of this program, talents will acquire the competence and international awareness needed to carry on their ventures in financial management after graduation.

Students are required to build up a solid theoretical foundation in financial management and other relevant subject areas. The program also emphasizes the importance of being aware of the domestic and international status in this field as well as the future developing trends.

Our graduates pursue their careers in government, international enterprises, banking business, securities and investment. Many choose to proceed to further study in relevant areas as well.

Main courses: Financial Management, Corporate Finance, Financial Accounting Theory, Accounting Information System Research, Cross-border Banking Business, International Financial Issues, Econometrics, Business Chinese, etc.

Master of International Trade

Master of International Trade program dedicates to provide an international study environment and foster world-class economics and trade elites with an international vision. This program provides overseas students with two and a half years of analytical training focused on theories and practical skills of the international trade. It also provides students with a platform to develop the critical thinking skills and knowledge necessary to become experts at analyzing international markets, international business negotiation, promotion and implementation of import and export, and international economic cooperation.

After graduation, graduates from DUFE will be able to work in various areas such as multinational corporations, financial institutions, government agencies and academic organizations.

Main courses: International Trade Theory and Policy, China's Foreign Trade, Practice of International Trade, China's foreign-related Economic Laws and Regulations, Operation Analysis of International Corporation, Contemporary China, etc.

Master of Tourism Management

Master of Tourism Management program aims to train senior managers in tourism enterprises and scientific researchers in research institutes. This program also focuses on shaping students' ability of solving problem and logical thinking ability. This program has three research directions including tourism business management, social and cultural tourism and tourism planning and development.

Students take part in an interesting combination of English taught courses, independent research and study visits, allowing students to utilize the advantages of the tight connection with many international companies. With our assistance and arrangement, students will have an opportunity to complete their internships in world famous hotel & resort corporations in Dalian.

After graduation, students may be engaged in management departments in tourism enterprises, state administrative departments, tourism universities or colleges and tourism research institutions.

Main courses: Tourism Research Methodology, Tourism Policy and Development, Attraction Management, Global Tourism Market, Business Strategy Theory in Tourism, Tourism Marketing Management, etc.

Master of E-Commerce

Applying theories and methods of management, economics, and information technology in research of operational rules and characteristics of e-commerce, which will help improve product and service quality, speed up product and service delivery, and meet the enterprises' and consumers' requirement of lower costs and better service.

MEC program aims to cultivate students to become high level talents with international visions, innovative consciousness and entrepreneurial spirits. By joining MEC program, the candidates will systematically master basic theories of cross-border e-commerce and information technology and be familiar with the characteristics and development of cross-border e-commerce.

Main research fields: e-commerce trust mechanism, digital innovation of service industry, social computing and business intelligence, social commerce users' behavior, online word-of-mouth, e-commerce-based logistics network design and application, Information security, cross-border e-commerce, etc.

Master in Management Science and Engineering

Applying theories and methods of operations research and management science to solve problems in society, economics, manufacturing, service systems, etc., including forecasting problems, decision making problems, evaluation problems, and programming problems, which will help decision makers with scientific decision-making.

MMSE program aims to cultivate students to become comprehensive talents. By joining MMSE program, the candidates will be equipped with management philosophy, administrative ability and solid foundation of management and economic theory. They will systematically grasp the expertise knowledge and research methods in the field of management science and engineering especially data analytics, operations research and optimization and management decision-making. They will also be able to apply theories and methodologies to solve complex practical problems in the field of management.

Main research fields: production management and logistics management in manufacturing systems under the circumstances of emerging information technology (such as mobile internet, big data and cloud computing), operation management in logistics, efficiency evaluation and optimization in logistics, management and optimization in emergency response to disasters and social security problems, policy-designing and management in energy and environment strategy, enterprise risk management in an open environment, and financial technology.

Doctoral Program

As an international student, I must encourage other students from abroad to pursue their academic experience here at School of Management Science and Engineering. Situated in Dalian, one of the most beautiful cities of China, it is a great place to learn about Chinese culture and also find other international peers who share your excitement about this eventful atmosphere.

Accommodation

The accommodation environment is a vital part of students' campus life. DUFÉ provides a good accommodation for international students. Whether you decide to move into on-campus students' dormitories, or in alternative off-campus accommodation, we will help you get the most out of your time here.

On-campus Accommodation

Living on campus is a popular choice for international students. The accommodation is conveniently located in the west of DUFÉ's campus. The accommodation is exclusive to international students and it is a great place to meet new friends. It is also a favorable environment to adapt to campus life in DUFÉ.

Attentions

- If you want to live in campus dormitories, please make a reservation on <http://study.dufe.edu.cn> or send an email to study@dufe.edu.cn
- International students should pay tuition, accommodation, and all the other related fees after arrival.
- If early departure, the room rate will be calculated according to the actual number of days can apply for a refund at the SIE office.

Off-campus Accommodation

International students can also live off campus. The rent for an apartment near the university with the size of 50-150 m² is about 1000-3500 RMB per month. Information about renting apartments will be provided. Students can choose based on their needs. Students must fill in the Registration Form of Residence at the local police station and register in administrative service centre within 24 hours after they move.

Dalian City

A Beautiful and Safe City

With its beautiful coastal location and a mild climate, Dalian is one of the most vibrant cities in China and a great place to live and study. As one of the China's most livable cities, Dalian offers a unique blend of European, Russian, Japanese and traditional Chinese architecture reflecting the city's fascinating history.

A Dynamic City and Financial Center

Dalian is one of the most prosperous cities, which attracts world top 500 companies such as Microsoft, SONY, HP, SAP, IBM and Intel to set subsidiaries here. Dalian is also a popular tourist destination, with a mild climate and beautiful beaches. In the garden-like city of Dalian, visitors can leisurely walk through parks, lawns and civic squares and take in an array of fountains and gardens. The city also hosts a number of international festivals, including the annual International Fashion Festival and China International Beer Festival.

Convenient Public Transportation

Dalian has a very convenient public transportation system with distinctive silver buses and subways covering the entire city. Dalian Tram System has a very long developing history ranking the second oldest on in China. Meanwhile, the new Metro network has made travel even faster and more pleasant. Dalian city is also connected with the rest of Chinese cities through high-speed railways and airplanes.
