WELCOME TO UIC

■ Professor **TANG Tao**
President of UIC
Member of the Chinese Academy of Sciences

Seventeen years ago, we began a bold experiment in Zhuhai to give students an education that is international by design and multicultural in experience. Our campus is a crossroads of cultures, East and West. Our classes are small; our teaching language is English. Best of all, our curriculum meets the highest international standards and our multi-ethnic teachers are truly wonderful. In short, UIC is an international liberal arts college unique on Chinese soil. The students we have attracted, not surprisingly, are keen to learn, receptive to different cultures and respectful of Chinese tradition.

In short order, we have built a reputation as the place to go to prepare for an overseas education while getting a whole person education.

If you are keen on a journey of discovery about yourself or the world, I invite you to join us. We will prepare you for an exciting future. Are you ready to follow your dream?

A breathtaking campus in beautiful Zhuhai awaits you.

Innovative Campus

Our modern and innovative campus upholds our liberal arts education, where teaching and learning are embedded in a safe, relaxed, and yet academically rigorous atmosphere with first-class facilities that invite interaction. We are a campus for students!

WE ARE UIC

Global Outlook

Our teaching faculty is global in nature, and our internationalized curriculum and English-only environment help them to prepare more than 70% of our students for further study overseas and to offer meaningful study abroad opportunities to our undergraduates. UIC is a university for the world!

National Anchoring

UIC, co-founded by Beijing Normal University and Hong Kong Baptist University in 2005, embraces its rich Chinese heritage, reflected in courses in music, literature, sports, and history. We are a college for China!

- Applied Mathematics Programme
- Applied Psychology Programme
- Artificial Intelligence Programme
- Computer Science and Technology Programme
- Data Science Programme
- Environmental Science Programme
- Financial Mathematics Programme
- Food Science and Technology Programme
- Statistics Programme

WELL ROUNDED EDUCATION

The School of General Education (SGE)

Dedicated to the ideal of liberal arts education, SGE is committed to providing, developing and coordinating a broad general education curriculum that cultivates students' intellectual and civic capabilities needed to be well-rounded young professionals, responsible citizens, and lifelong learners.

Whole Person Education Centre

Whole Person Education Center (WPEC) offers curricular courses of WPE Experiential Learning and Healthy Lifestyle. In addition, WPEC organizes off-campus programs and extra-curricular activities to deepen students' learning experience, and advises a wide range of student interest clubs.

Chinese Language and Culture Centre

Chinese Language and Culture Centre (CLCC) plays a key role in practicing the ideal of liberal arts education of UIC. It devotes to promoting Chinese language and culture by offering Mandarin courses as well as multiple academic events to bring students fresh experience of Chinese culture appreciation.

English Language Centre

English Language Centre (ELC) aims to enhance students' English proficiency and equip them with good communicative skills available in academic, business, and social contexts by delivering mandatory and elective courses to all students in UIC.

UIC students win record amount of awards in Mathematical Contest in Modeling

The woman group of the UIC Dragon Lion Dance Team won the second prize in the optional lion dance routine session

Students Launched the Third Issue of Elsewhere

International Conference

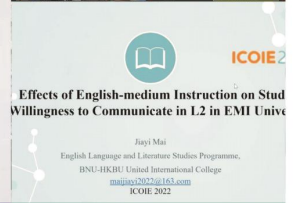

COMMITTED ACADEMICS AND EXCELLENT STUDENTS

UIC students win awards at creativity and innovation contests

Faculty Earned National Natural Science Foundation of China Prof Hui ZHANG's project combines artificial intelligence with engineering by using machine perception and machine vision technology.

Best Student Paper Award at ICQIE 2022

“ We at UIC are united in our diversity and are proud of our local roots while we remain firmly focused on the international stage. ”

GLOBAL VISION

Different languages can be heard daily on our campus where we shape our students for their global futures. International students and staff can experience the rich diversity of China, with its blend of ancient and modern civilization. Our campus offers plenty of opportunities for students to learn about each other's cultures. It is a matter of pride to us that more than 7 out of every 10 students are on their way to study overseas. The Greater Bay Area HK-Macao-Zhuhai Bridge provides a physical link to the big wide world, connecting the major cities in the Pearl River Delta in a network representing China's international connectivity.

Exchange Programmes

We provide students with the opportunities to study at one of UIC's overseas or domestic partner institutions for one semester during their four year study at UIC. The IDO Study Abroad and Exchange Programmes are voluntary programmes, which offer tuition-waiver exchange seats (exchange programmes) and fee-paying seats (study abroad programmes) in more than 50 partner institutions worldwide.

Summer Programmes

Every summer, UIC is proud to not only host tailor-made summer programmes for students from our partner institutions, but also send out groups of students to other countries. These summer programmes enable students to learn, to grow, to engage in cultural exchange and to make friends.

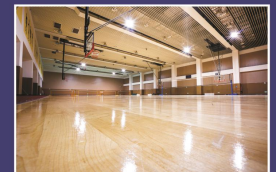

INNOVATIVE CAMPUS

Our modern campus has been designed around the needs of students and their educational as well as physical requirements for a balance between studies and recreation. We take pride in our cutting edge Learning Resource Center where students can go to study in peaceful surroundings and where they can source the impressive range of books and other academic publications in our physical collection, or make use of our vast online database collection.

Modern Facilities For Modern Students

Sporting an array of laboratories ranging from food science to biology and computer science, and boasting the latest in digital imaging and 3D printing technology, our campus allows all students to embrace the technological century with a broad understanding of how a liberal arts foundation can help us to imagine a brighter and better future for ourselves and our children.

WHAT OUR STUDENTS SAY

Yukyung JEON
South Korea

Major in Globalisation and Development

I am a degree-seeking student from South Korea. At UIC, I am enjoying various experiences. I have met a lot of friends. I have also learnt and understood more about the different cultures between my friends and me. The most significant advantage I think is that we can understand the language by learning English and Chinese. I am looking forward to life at UIC in the future!

Alesia TYKHONOVA
Ukraine

Major in Applied Psychology

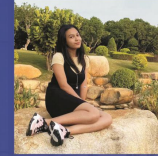

Being a student at UIC is a great honor for me. College provides great learning possibilities! Moreover, here are incredibly cool and nice people. I am so grateful for the opportunity to be here.

Palina SAKAVA
Republic of Belarus

Major in Media and Communication Studies

Finding a university teaching in English was the best option for me. In addition, I really liked UIC's geographical location and nature. It's very beautiful here.

Laxmi Hemant KHATRI
India

Major in Media and Communication Studies

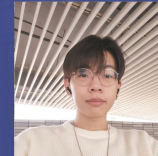

UIC provided a great opportunity to study abroad and to grow independently as an individual. Whenever I'm not studying, I like to spend my free time appreciating the beautiful architecture of the campus. UIC also has a very friendly atmosphere and everyone is ready to lend a helping hand.

Celeste VELASQUEZ BOTTINI
Venezuela

Major in Media Arts and Design

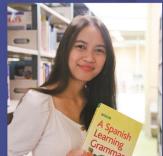

UIC is a place full of great opportunities. The diverse campus provides plenty of activities to keep you interested. Here at UIC, there's more than just classes and lectures; there's also a welcoming environment where there's a chance to grow as a person every day.

Yu Pin KU
Malaysia

Major in Media and Communication Studies

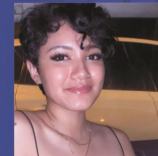

UIC is a university full of love where students and teachers are as well willing to help each other. It is provide a very friendly environment for foreign students as well.

Andrea Isabelle ANDRADE
Philippines

Major in English Language and Literature Studies

I love how UIC's teachers encourage students to ask questions and tell us don't be afraid of our mistakes. It really creates a healthy environment for us to learn.

Ana Cristina RIOS POWELL
Panama

Major in Cinema and Television

Everything about UIC is great. Their staff, the teachers, the students, and the campus. Everyone is nice, and they are always attentive!

WHERE WILL I LIVE?

UIC's campus is located next to the ancient Huitong Village. Surrounding the campus and the village are many coffee shops, restaurants, and other interesting little shops. The campus itself is a modern complex that has dormitories on-site. International students will have the chance to share a room with a Chinese student thereby enabling them to learn much more about this complex and beautiful culture-first-hand! All rooms are equipped with en-suite bathrooms, LAN, and separately controlled air conditioning. Each floor of the dormitories has a small pantry and kitchenette, with a common lounge providing space to relax with friends after a long day. A multi-purpose room, study room, and laundry area complete the suite of services available to all students living in dormitories.

The second-phase campus will mainly be the home of science programmes and Graduate School. The building area of approximately 400,000 square meters will host the bases of science, engineering, interdisciplinary subjects, cutting-edge technologies and industrial transformation. The project is expected to be fully put into use in September 2025.

LIFE AFTER UIC

Postgraduate Life

By August of 2021, UIC's body of alumni exceeded 11500, alumni who are not only studying all over the world, but who are fiercely dedicated to supporting and lighting the way for their fellow undergraduates still at our campus. In our unity lies our strength!

Top University Life

During the past years, 71% of all graduates continued their education and graduate programmes around the world, more than half of them in QS top 100 universities.

Reputation of UIC Students

UIC students are good at thinking, diligent in practice and are flexible with their professional knowledge to solve practical problems. Their overall performance is excellent. -- China Citic Bank

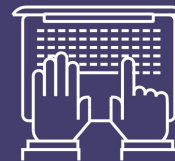

UIC students have an open mind and a great ability to think for themselves. They can draw inferences from one example and finish the work to a high quality in a short time. -- Guangzhou Securities

During the internship, UIC students were diligent and conscientious, with strong adaptability and innovation consciousness. They were open-minded and eager to learn, and worked actively, and were highly praised by colleagues. -- Industrial and Commercial Bank of China

Working Life

Those graduates opting for the working life directly after graduation are not disappointed, as they easily find jobs in a number of sectors, including:

- Government
- State-owned enterprises
- Public organizations

SCHOLARSHIPS AND TUITION FEES
